

Sinclair Broadcasting's decision to pressure their stations to air an anti-Kerry documentary days before the election is an abuse of the public airways. It seems that Sinclair believes they can get away with this partisan use of the public airways because by the time any action against them occurs, the election, which they wish to influence, will already have occurred.

Please do your duty as guardians of OUR airways. The actions of Sinclair are anti-democratic and harmful to the well being of our democracy.

Thank you,

Sarah watts
